

Attachment D

Current and Additional Cameras

Area	Camera & Location	Existing or Additional	#	Type of Camera	Camera Location Change
Detention	Facing Stat 15	Additional	1	Outdoor 5MP	Hawthorne Street side
TOTAL ADDITIONAL CAMERAS			12		

Notes: This system is going to consist of IP cameras and NVR's. The NVR's should be capable of storing a minimum of 60 days of video. All exposed conduits will be rigid. Contractor will need to check existing fiber optic to determine it's suitability and advise of any changes needed. The contractor will establish the connection between door controls and the cameras.
